WORKS

Spec Guide

Design-led furniture to help your work flow

Great things happen when you find your flow.

Flow – A state of heightened focus and immersion in art, play and work.

We design and manufacture commercial furniture to help you and your team find your flow state. With simple, unobtrusive, flexible designs to support any activity in our ever-changing work environments, we want to support you with our cost-effective, furniture range, providing style and comfort.

Flexible

We understand how to support new ways of working by providing a small but flexible range of furniture suited to many working practices.

Ease

We believe in the path of least resistance, so to keep things simple, we've selected just the key products you need without a baffling array of choices.

Quality

All Flowworks furniture is designed for commercial environments, which means it's built to last. Manufactured using quality materials and processes to provide strength and value, we have a minimum five year warranty on our entire range.

Sustainability

We are responsible for our actions and being aware of our impact in our process helps us to make informed decisions.

Accredited to ISO 14001, FISP members and FSC certified, we take our environmental impact seriously. All timber is FSC certified, polypropylene plastic is moulded with zero waste, has varying amounts of recycled content and is 100% recyclable at its end of life. Furniture is designed to last, with a minimum five year guarantee. Even our logistics work in a flexible manner to minimise transportation of bulky goods and avoid double handling.

Static Desks

Truplan

The Truplan Bench platform has been designed to use the minimum amount of components possible. The system utilises an innovative leg-to-rail connection to create a stable product whilst providing a cost-effective solution for both desk and bench configurations.

Available as a cost-effective fixed beam version as well as offering the flexibility of a telescopic beam to future-proof reconfigurations. The telescopic version also allows for a range of accessories, the most notable being the ability to have an electric or settable individual height-adjustable position in a multi-person bench run.

Minimum order quantities apply, please enquire.

Height Adjustable

Flow Electric

Flow is a two-tier electric height adjustable desk system to help promote a healthy work environment, available as single and back-to-back options. There are many benefits of a sit stand desk. It improves your ergonomics, your health, your focus, your mood and your productivity.

Flow under-frames are designed and manufactured for use within the most demanding of workplace environments (including the education sector). All the frames are constructed from a range of medium to heavy gauge mild steel tubular and sheet sections, to create a rigid and robust desk understructure. Actuator sets come with a two year warranty as standard (T&C's apply).

Features:

- Electric height adjustability (650-1300mm inc. a 25mm desktop)
- Basic switch as standard, memory switch is a cost option
- Optional leg infill panel
- Collision detection technology
- Shared lower and individual upper cable trays
- Superior build quality

Minimum order quantities apply, please enquire.

Workstation Screens

Our range of screens have been designed to give you a choice of aesthetic as well as function. Available for both Truplan and Flow Electric workstations.

ALL PRICES ON APPLICATION

Workstation Screens

Hush Screens

Hush is framed on three sides using lightly proportioned bespoke aluminium extrusions, Hush's clean, crisp, angular design has been consciously conceived to convey clean contemporary lines.

Features

- 30mm screen thickness
- Aluminium frame on three sides
- Integral hanging facility
- Toolbar and glazing options
- Huge range of colours available
- Crisp, clean design
- Competitively priced

Workstation Screens

Calm Screens

Calm is a range of contemporary, fabric-covered screens. The elegant edge profile, large radiused corners and bold stitching detail around the hem make this screen a high-end product with a premium quality feel.

Features

- Beautifully detailed exposed stitching
- Screen thickness 25mm (approx)
- Radius corner detail
- Hand crafted
- Incredible value for money
- Designed and manufactured in Britain
- Only available on Camira Blazer Lite

Workstation Screens

Solace Screens

Solace is a range of contemporary, fully upholstered fabric-covered screens. Designed to give you matching fabric trim at a highly competitive price, whilst remaining aesthetically clean and simple.

The screens comprise 25mm thick fabric-covered panels, framed with matching fabric edge trim. Available in a variety of fabrics.

Features

- 25mm screen thickness
- Incredible value for money
- Fully upholstered screen with matching fabric trim
- Accessory hanging facility option
- Radiused on all four corners
- Superior build quality

Workstation Screens

Retreat Screens

Retreat is a range of contemporary, fully upholstered fabric-covered screens with contrasting PVC extrusion at a highly competitive price. The rounded corners give a softer aesthetic whilst remaining clean and simple.

Features

- 25mm screen thickness
- Optional pinnability
- High quality 4mm thick PVC trim surround
- Huge range of colours available
- Clean, crisp design
- Accessory rail option
- Excellent value

Meeting & Boardroom

TT Table

These premium flip top tables provide a robust, reliable and affordable solution for reconfigurable furniture within all workplace environments.

Designed and manufactured in the UK, the TT Table incorporates an innovative neutrally pivoted release mechanism, with integrated adjustable dampening. As a consequence, table tops are perfectly balanced to minimise premature opening and closing, and the 'flipping action' is controlled and easy to operate.

TT is supplied flat-packed and boxed for ease of transportation with simple self-assembly frames.

Features

- Adjustable mechanism
- Smooth controlled 'flipping action'
- Accommodates a large variety of top shapes and sizes
- Quick and easy to assemble

Minimum order quantities apply, please enquire.

Work Chairs

Halo

Halo's name is derived from the soft and flexible oval lumbar support, which gives the chair its unique and understated aesthetics.

Unprecedented comfort and support is achieved with our 3D mesh and intuitive mechanism.
